Funky fashions and classic characters were on hand for the launch of 15 Renwick Street, hosted at the building's sales center at 505 Greenwich Street.

The IGI-USA-developed building features 31 condos, including three adjoining townhouse units and four duplex penthouses, which are priced between \$7.85 million and \$10.5 million. Prices for two- and three-bedroom units range from about \$2 million to \$5 million, with townhouses starting at \$3.9 million.

The project, which is being marketed by CORE, took some time to get off the ground [following a stall in work during the recession and a change of hands](#). — *Kerry Barger*
